OEL-1083/64

ADM-612

12 NOV 1964

**MEMORANDUM FOR: Assistant Director for Special Activities**

**SUBJECT** : Negotiation of Contract with  
25X1A5a1 [REDACTED]

25X1A5a1

25X1D0a

1. Attached are two proposals OEL solicited from [REDACTED] Proposal No. P-16 provides for an engineering study to be performed at [REDACTED]

25X1A

[REDACTED] The study is designed to define optimum tasking for the [REDACTED] and the role each can most effectively play in the intercept of [REDACTED]

25X1A

25X1D6b

[REDACTED] Based on the results of the study, a recommended functional plan will be proposed by the contractor. The functional plan will define:

A. Techniques and/or new equipment required for updating the existing systems.

25X1D0a

B. The feasibility of an intercept capability for [REDACTED]

C. The most efficient assignment of collection tasks at the respective sites.

The time interval covered by Proposal P-16 is nine months.

25X1D6b

2. Technical Proposal P-21 is designed to measure parameters [REDACTED] provide for the design of equipment [REDACTED] This task is to be effective for a period of five months and entails the detail of engineering personnel to [REDACTED]

25X1D6b

[REDACTED] be analyzed at the contractor's facility subsequent to completion of field survey.

3. Funds to support the execution of technical proposal P-21 are to be derived from Program B. Funding for technical proposal P-16 is to be earmarked from the FY-65 OEL operating program. The same contract personnel will participate in the execution of both task orders, so costs will have to be identified with each particular task order on the basis of actual time expenditures. Travel and related costs are to

OEL-1063/64

Page Two

be prorated on the basis of the actual manhours expended in connection with each task. Technical Proposal P-21 is scheduled for negotiation through OSA channels. For this reason, the Office of ELINT feels that both contracts should be negotiated by OSA in order to facilitate the final audit incident to termination and settlement. 25X1A1a

4. Proposal P-16 estimates expense of [REDACTED] to complete the engineering survey. Accordingly, funds in this amount are being encumbered to substantiate the Office of ELINT's funds commitment. Technical Proposal P-21 involves an estimated cost of [REDACTED] which is being funded from Program B allotments. The authorizing document to substantiate this funding commitment is attached. 25X1A1a

25X1A5a1 5. Due to the priority of the project, it is requested that appropriate [REDACTED] officials be advised of our acceptance of their proposals and that the contractor be authorized to proceed with the execution of the tasks at the earliest possible date.

25X1A9a 6. [REDACTED] extension 6941, has been designated Project Officer for Proposal P-16; and [REDACTED] extension 6941, has been designated Project Officer for P-21. Technical questions concerning these proposals may be addressed to either of these individuals. Prescribed security clearances for contractor personnel to engage in the field survey will be obtained through the DD/S&T Security Officer.

George C. Miller

GEORGE C. MILLER  
Assistant Director for ELINT
